Past Task 1.1.3

Submission 2 - Fixed First names starting with S showing up

Below is a screenshot of the `grep` command used on `people.txt`

The command used as `grep -E "(S[a-zA-Z]*,\\s[^S^s][a-zA-Z]*)" People.txt`,

The screenshot shows a terminal window with a file explorer on the left and a terminal on the right. The file explorer displays a list of files: `stco.txt`, `IPAddress.txt`, `output.txt`, and `People.txt`. The terminal window shows the command `grep -E "(S[a-zA-Z]*,\\s[^S^s][a-zA-Z]*)" People.txt` being executed, which filters the output to show only names starting with 'S'.

```
nekoX@nekoX: /media/sf_Shared/Week 1$ grep -E "(S[a-zA-Z]*,\\s[^S^s][a-zA-Z]*)" People.txt
Schmidt, Paul
Smith, Peter
nekoX@nekoX: /media/sf_Shared/Week 1$
